PROJECT WORK

Project work during graduations on “**NITRIC OXIDE PRESENT STATUS AND FUTURE APPLICATION**” at

PDVVP F's College of Pharmacy, Ahmednagar (M.S)

Abstract of Project

Nitric Oxide an environmental pollutant has now been revealed to play various important roles in human physiology. Earlier discovered as Endothelium Derived Relaxing Factor, it has now also been recognised as a neurotransmitter in the brain and peripheral nervous system. Though a lot has been discovered about Nitric Oxide, a lot is yet to be discovered

DECLARATION

I here by declare that the information above is true as per my knowledge.
