Education

Diploma in Dialysis Technology
BSS, Chennai
2016

Intermediate (12th)
U.P. Board, Allahabad, U.P.
2014

High School (10th)
U.P. Board, Allahabad, U.P.
2012

Key Skills

- Comprehensive dialysis process management.
- Pre- and post-dialysis patient care.
- Expertise in operating dialysis machines and RO systems.
- Strong knowledge of renal pathophysiology and dialysis technology.
- Compassionate patient care with a focus on safety and quality.
- Multilingual communication: English & Hindi.

👤 Profile

Dedicated and certified Dialysis Technician with extensive experience in hemodialysis procedures, patient care, and dialysis machine management. Proficient in femoral catheterization, fistula and graft needling, and the complete management of dialysis processes, including start-up, maintenance, and termination. Skilled in bedside care for critically ill patients with acute and chronic renal conditions. Experienced in operating cardiac monitors and reverse osmosis (RO) systems, and well-versed in the reprocessing of dialyzers for reuse. Known for a compassionate approach to patient care and commitment to advancing renal health.

📁 Work Experience

Dialysis Technician | Ajanta Hospital & IVF Centre (Under Nephroplus)

June 2023 – Present

- Independently handle dialysis procedures, including start-up, monitoring, and termination.
- Perform femoral catheterization, fistula needling, and dialyzer reprocessing.
- Conduct pre- and post-dialysis assessments for patient safety and comfort.

Dialysis Technician | Sadar Hospital, Siwan (Under Nephroplus)

June 2021 – June 2023

- Provided bedside management for critically ill patients with ARF and CRF.
