Kakrala, Budaun, 243637 India,

## PROFESSIONAL SUMMARY

---

Highly skilled and detail-oriented Cardiovascular Technologist with experience in performing diagnostic imaging and interventional cardiovascular procedures. Skilled in operating and maintaining complex cardiovascular equipment, analyzing diagnostic data, and collaborating with healthcare teams to provide optimal patient care. Dedicated to maintaining high standards in patient safety, care, and diagnostic accuracy.

## WORK EXPERIENCE

---

### Cardiovascular Technologist

Jan 2024 - Present

Jawaharlal Nehru Medical College, AMU • Aligarh

- Perform a variety of non-invasive cardiovascular diagnostic tests, including electrocardiograms (EKGs), stress tests, echocardiograms, and Holter monitoring, ensuring accuracy and reliability.
- Assist cardiologists during invasive procedures such as cardiac catheterizations, angioplasties, and pacemaker insertions by preparing patients, operating equipment, and maintaining a sterile environment.
- Operate, calibrate, and maintain diagnostic equipment to ensure all devices are functioning correctly and comply with safety regulations.
- Analyze and interpret diagnostic data, preparing comprehensive reports for cardiologists and healthcare teams to support accurate diagnosis and treatment planning.
- Maintain detailed and accurate patient records, ensuring all documentation meets healthcare regulations and confidentiality standards.
- Collaborate with interdisciplinary teams and maintain diagnostic accuracy.

### Cardiovascular Technologist Intern

Jawaharlal Nehru Medical College, AMU, Aligarh U.P

Jan 2023 – Dec 2023

- Assisted senior technologists in performing cardiovascular diagnostic tests, gaining hands-on experience with EKGs, stress tests, and echocardiograms.
- Observed and learning proper techniques and safety protocols under the guidance of experienced professionals.
- Assisted in patient preparation and post-procedure care.
- Developed skills in equipment operation, maintenance, and data analysis through practical experience and mentorship.

## EDUCATION

---

**B.SC (Allied Health Science)**  
Sanskriti University • Mathura

Aug 2019 - Dec 2022

- **Relevant Coursework:** Anatomy and Physiology, Medical Imaging, Biochemistry, Basic echocardiography, Advance echo -TMT, ambulance Holter monitoring, cardiac catheterization, Patient Care and Management, General microbiology.

## SKILLS

---

- **Technical Skills:** EKG, Holter monitoring, stress testing, echocardiography (Adult, Paediatric), diagnostic equipment operation and maintenance, TMT, Assist angiography and angioplasty
- **Patient Care:** Patient preparation, communication, education, and follow-up.
- **Clinical Skills:** Recording and interpreting test results, maintaining patient records, assisting in treatment planning.
- **Interpersonal Skills:** Team collaboration, patient communication, mentoring, and training.
- **Software:** EMR systems, diagnostic software.

## AWARDS AND HONOURS

---

**” Impact of Agnihotra &Yoga Science on Health “**

2020

As a Cardiovascular Technologist, I have a deep understanding of the positive impact that holistic practices like Agnihotra and Yoga Science can have on cardiovascular health. Both practices are rooted in ancient traditions and have been shown to offer significant health benefits, particularly in reducing stress, improving heart function, holistic patient care and enhancing overall well-being. Incorporating these holistic approaches into cardiovascular care not only addresses the physical aspects of heart health but also enhances mental and emotional well-being, leading to more comprehensive patient care.
