Knowledge of pharmacy regulations and ethical guidelines.

Diligent

Microsoft word

Basic Knowledge of computer.

Collaborative and Problem solving.

Ability to work with others.

PROJECTS

Formulation And Evaluation of Curcumin and Eugenol Nanoemulsion In-situ Mucoadhesive Gel, In situ gel drug delivery systems, like Curcumin and Eugenol Nanoemulsion In-situ Mucoadhesive gel, offer a promising solution for periodontal delivery. These gels can be easily injected into pockets, transforming into a controlled-release solid implant based on stimuli like pH and temperature. Poloxamer-407 and carbopol-934 were key ingredients. Batch F3 stood out with optimal results in zeta potential, globule size, viscosity, and release study parameters, fitting well into the Peppas model for controlled drug release via case II transport:

COURSE AND CERTIFICATION

CERTIFICATE IN COMPUTER APPLICATIONS, BUSINESS ACCOUNTING AND MULTILINGUAL D.T.P., National institute of electronics and information technology, Chandigarh
