ABOUT ME

Dedicated and results-driven Project experience in leading cross-functional teams to successful project completion. Proficient in project planning and working on real projects, applying technology to solve real-world problems. I am seeking opportunities to apply my expertise to driving project success and exceeding client expectations. I am always eager to stay updated with the newest developments in Computer Engineering.

EXPERIENCE PROJECT

Major Project

Inventory Management System

2023 - 7th Sem.

- It's based on website to manage the central repository where information about all inventory items is stored. It includes details such as product descriptions, quantities on hand, and reorder points.

Mini Project

Community Wellness Center PHC

2023 - 6th Sem.

- CWC PHC is based on website built to manage various aspects of the hospital, including patient registration, appointment scheduling, medical records, pharmacy inventory, billing and staff management.

Language Legacy

2022 - 5th Sem.

- The Language Legacy is a web-based platform that helps people learn how to code and create computer programs.
